The answers of Messrs. Foster and Freeman

Mr. Foster's Answer. And now comes Charles E. Foster, and, for ber of the firm of Foster & Freeman, mentioned in said petition, and admits that the firm at the time mentioned in the petition, and the American Bell Telephone Company. He avers that he had, personally, no knowledge whatever as to the matters and things set forth fore, he is unable to make any answer to the matters and things set forth in said petition except upon information and belief, and, on information and belief, says that he either member thereof, by the consent and al-lowance of the then commissioner of patents, and the chief clerk of the patent office, and with the connivance of the said commissioner and chief clerk, or any other person or persons, or otherwise, was permitted to inspect any paper or papers mentioned or referred to in said petition, or that said paper or papers, mentioned and referred to in said peti-tion, were laid open to the inspection of said firm, or any member thereof, or to any other person or persons whomsoever employed by them or connected with them.

AS TO THE COPIES. And Charles E. Foster further, on information and belief, denies that he or the firm of Foster & Freeman, or Freeman, or any person own knowledge denies that any such permission state positively that I never had any triplicate never saw the said papers, or any of them, or any copies of any of them; that he never, directly or indirectly, applied for, procured, copy, except so far as I may have seen some tothe inspection thereof, or any of them, or to whom the present assistant commissioner has copies thereof, or ever received such papers, or shown it for the purposes of this case. any copies thereof, or of any of them, or ever colluded or connived with any of the persons named in said petition, or with any other per-sons whomsoever, with a view to procuring said papers, or the inspection of said papers, or copies thereof, or any of them as in said petition averred; and he expressly denies that he, in any way, manner or form, directly tion whatever in regard to the matters in said ired by him at the time above stated, and, ns against the firm of Foster & Freeman, and each member thereof, as hereinbefore stated. DENIES COLLUSION.

And Charles E. Foster further specifically says that he never inspected, copied or caused to be inspected or copied, or colluded or connived with any of the persons mentioned insaid petition, or with any other person or persons whomsoever, to procure the inspection or copy-ing of the file wrapper and contents of applicaon serial number 126527, filed April 3, 1884, or any records or file of any character whatsoever connected therewith directly or indirectly, and, to the best of his knowledge and on information and belief, says that no one connected with his office or firm has had or re-ceived any of said copies, or made any inspec-tion or examination thereof, and that any and every allegation or insinuation of any wrongdoing by him, or with his connivance, in relatio to the matters set forth in said petition is utterly

control, or in the possession or control of my partner, or of any person in my employ or under my control. I never, by collusion or by connivance with W. E. Simonds or Joseph L. Bennett, or any one, procured or sought to procure any copies or any inspection of any of certified copies. No one clae has procured such copies or inspection with my knowledge, and I have no reason to believe, and do not believe, that any copies of any of said papers were ever the control of the control procured or seen or any inspection of the originals, or any copies thereof, ever had any one not in the employ of patent office, save the duly communicated with said Joseph L. Bennett on prospective advancement. t subject, save as hereinafter stated. I have done no wrongful or improper act in the premises. I have not known of or do not tempted by any one in the premises, or with

tice of the patent office, and that they caused application to be made therefor in the mode required by the rules. I believe that in accordance therewith they were furnished by the patent office while Mr. W. E. Simonds was commissioner, with a duly certified copy of the file wrapper and contents of Drawbaugh's applica-tion, serial No. 14,040, filed July 22-26, 1880. tion, serial No. 14,040, filed July 22-20, 1800, being one of the applications referred to in the petition, and I believe and aver that they were in law entitled to the same.

I believe also that upon formal written re-

that case was entirely the testimony of witnesses and records furnished by the Bell Company to prove the public use and
sale of their own instruments more
than two years before Drawbaugh's
first application. That testimony was
printed by the patent office in 1890, at the
special written request of Messrs. Church &

This copy includes a page of "points." but does not contain any copy of the briefs for applicant.

I believe that neither the American Telephone Company nor any one connected with it, nor in its interest or behalf, ever made or received or saw any copy of the file wrapper and contents of Drawbaugh's application, serial No. 126,527, filed April 3, 1884, or of any part thereof, or ever inpected the original papers of
